9/14/67

Dear Mr. Weisberg,

I appreciate that you have sent the notice for your new book. I have the other three books which you have published. I have read the Warren Report and have spent many hours in the library reading important sections of the 26 volumes of testimony and evidence. In addition I have read every book written by a defender or critic of the Report. Out of all the books, I think you have done the most intensive and scholarly research.

I have written to my senators and congressman, asking for a new investigation, but I have received negative replies. My main hope now is that Mr. Garrison will be able to expose the whitewash to the world. The issue of the fraudulent Report revealed a defect in our society, besides the one that allowed a President to be killed and his alleged assassin to be gunned down. I commend you for your work in trying to reveal the truth and therefore correct this defect in our great system of democracy.

Sincerely yours,

Howard Romanek
